

The Tracking Project presents:

**Cultural Perspectives on Dreams and Dreaming  
with John Stokes  
April 21 – 23, 2023**

Dreams and Dreaming, by Judy Haas

Daily dream circles have always been a part of our Tracking Project courses. Since 2017, John Stokes — Director of the Project — has been offering a higher level course on dreams and dreaming to share some of the vast knowledge he has gained through more than 40 years of work with traditional Native elders and healers from around the world. Traditional cultures have found an amazing range of styles to express their experiences in the dream world. Using the technique of “Dreamtracking®”, we will look at the ecology of dreams through the eyes of many varied cultures and traditions.

**When:** Friday, April 21 7:30 pm — 9:30 pm  
Saturday, April 22 9:00 am — 4:00 pm  
Sunday, April 23 9:00 am — 1:00 pm  
**Where:** A private yurt in Santa Fe  
**Cost:** \$250/person, \$450/couple and \$200/student

Come join us in a small, sacred space with a group of people who honor and respect their dreams. John has developed a technology of dreaming which offers a framework on which we can hang our dreams and visions, as well as our day dreams, meditations, signs and intuitions to form a cohesive body of knowledge.
